E2i internal bifold system without a bottom sill or floor channel is based on Eclipse's standard E2 hardware system and uses Centor's proven bifold window technology. For interior applications only, it is designed for seamless transitions between rooms and interior spaces. All the benefits of the versatile E2 system are preserved.

### E2i features include:

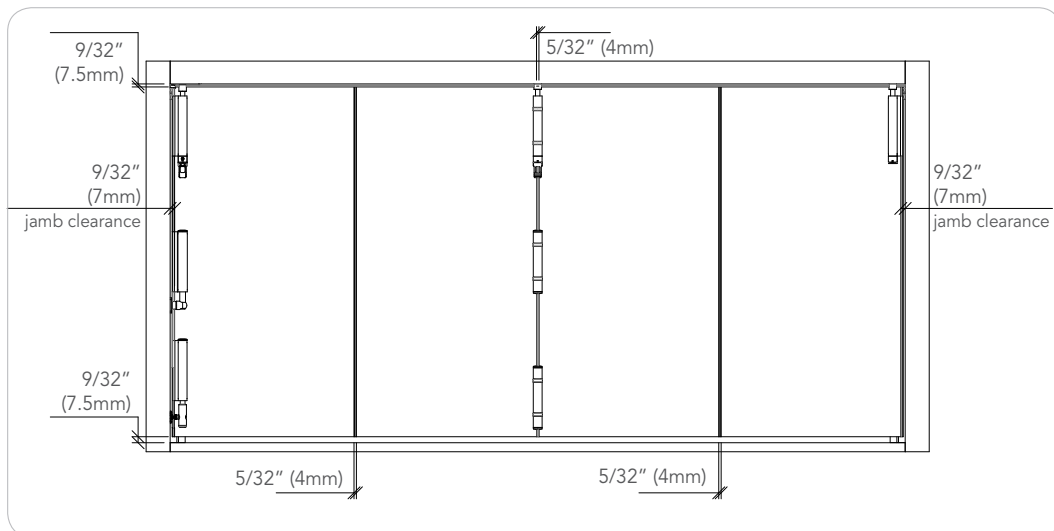

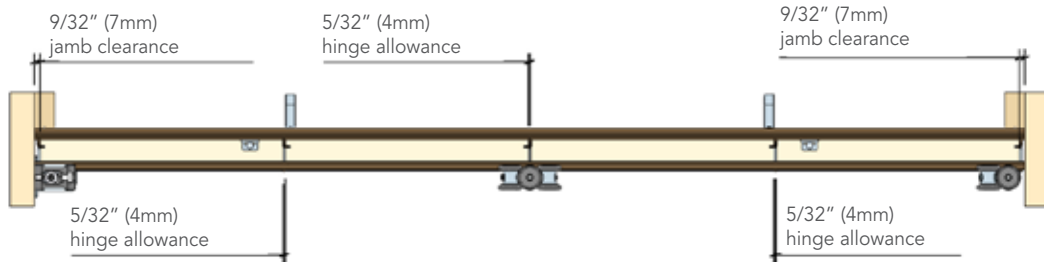

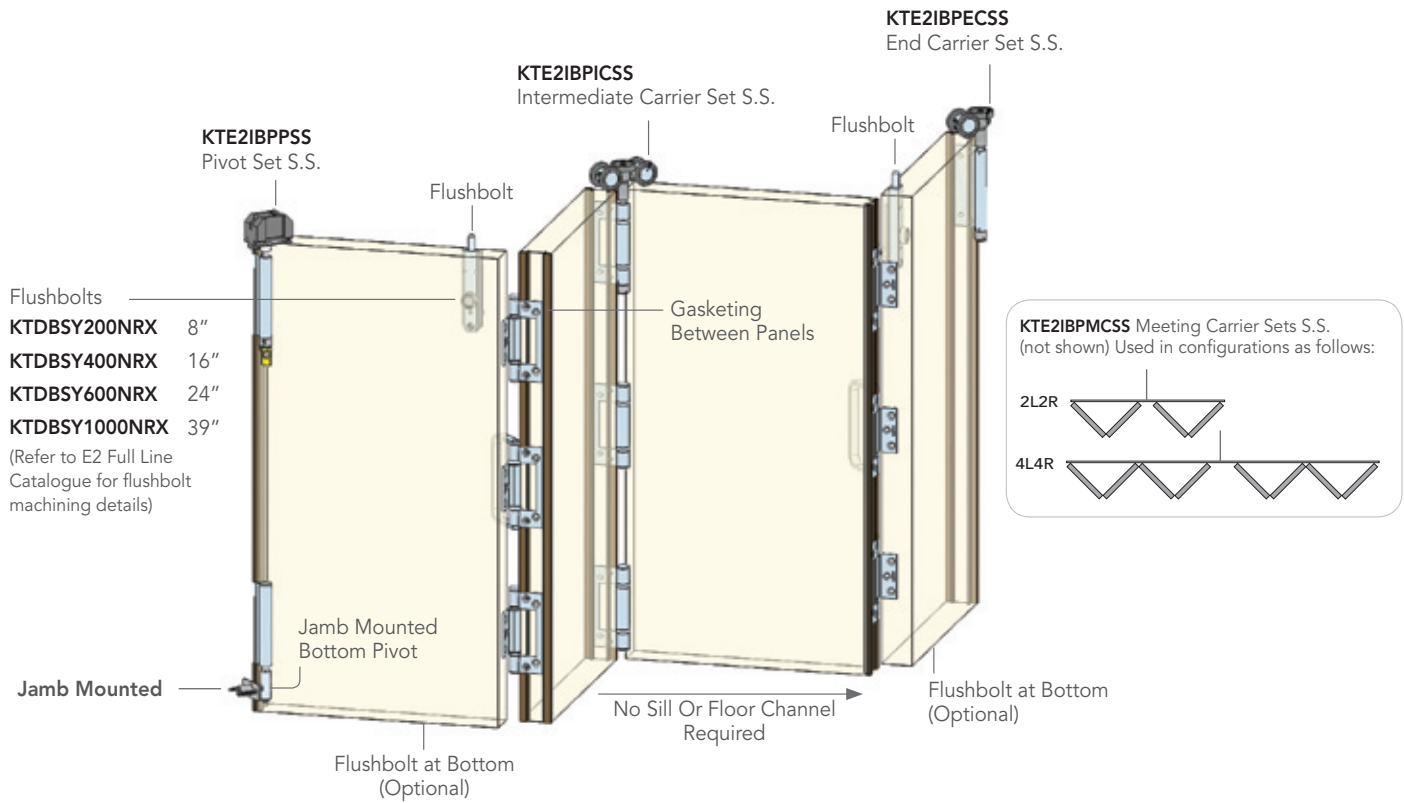

- Laterally adjustable bottom pivot
- All stainless steel construction
- No need for costly tile and concrete cutting
- Complete horizontal and vertical adjustment
